	5	SATO Y et al., Gene Therapy with Maxi-K+ Channels Restores Diminished Erectile Response in Older Animals During Electrical Stimulation of the Medial Preoptic Area (MPOA), The Journal of Urology, 2000, Vol. 163, No. 4, Supplement, pp. 198-199.	
	6	SATO Y et al., The Effects of Gene Therapy with Maxi-K+ Channels Apomorphine-Evoked Increases in Intracavernous Pressure in the Awake Rats, The Journal of Urology, 2001, Vol. 165, No. 5, Supplement, p. 220.	

Examiner Signature		Date Considered	
--------------------	--	-----------------	--

*EXAMINER: Initial if reference considered, whether or not citation is in conformance with MPEP 609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to applicant.

1 Applicant's unique citation designation number (optional). 2 Applicant is to place a check mark here if English language Translation is attached.

This collection of information is required by 37 CFR 1.98. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 (1-800-786-9199) and select option 2.
